Talented and innovative people, surrounded by nature and natural wonders, that is what Costa Rica is all about. The land of farmers, caring people but, most of all, biodiversity. Discovering our country is the most exciting adventure that you can encounter, with a single 0.03% of the planet's surface, we have 5% of its biodiversity.

We are people that thrive with enthusiasm, providing a haven for entrepreneurial companies. This makes us highly competitive, putting us on the road of a never-ending improvement process, so we can offer a wide variety of high quality products worldwide.

It is easy to awaken the senses when the words Costa Rica are uttered. Scents, sounds, textures, flavors and colorful views, that is Costa Rica. Hence, we have the perfect inspiration to make sure that your whole self stays healthy.

We are the "pura vida" people, and we believe that the time is ripe for you to know why. Reach into our culture, so you can realize what we are capable of. We invite you to get acquainted with our products, all made with the hands of ingenious Costa Ricans.

# Specialized & retail health products

When thinking about your personal care, we do it seriously.

Even though we are known as a very natural country, Costa Rica is not lagging behind in terms of technology. Combining both features has helped us create specialized high quality products that meet the needs of our customers, thus fulfilling their highest expectations.

Yes, we are sure that we can get our country under your skin, so you can carry it everywhere you go. So, do not fret about your health and your personal care. Instead, leave that to the experts, leave that to us.
