Floral Kaleidoscope

Costa Rica is a small country that accounts for only 0.03% of the surface of the Earth. Nonetheless, it is considered as one of the biggest countries in bio diversity per square mile of the world. Our flora is so magnificent that over 11,000 species of plants have been reported on our inventory.

Let us invite you to discover, through petals and aromas, our country, exotic by nature; filled with colors and intense sensations that catch the eye of the many visitors that take the plunge to come to this land of adventure that has no match. A stroll through the woods is an overwhelming experience. If you are moved to get to know us, you will discover in our flora and fauna countless wonders that you won't find anywhere else in the world.

For a small country; we have a great variety of micro-climates. Mountains, rivers, beaches, volcanoes, seas, valleys... each and every one of them with its own eco system, with its own, unique flowers of radiant colors; where the charm of our flora lies.

You will find a stronghold of peace and beauty among plants, flowers and foliage. This is why we'd like to show you a little bit more of our land. Run your fingers through this booklet and notice that, in every page, you'll find a bit of the heart of Costa Rica.

THE MUSES OF THE WOODS

We are life... our land beats through our volcanoes, and our trees whisper when the wind passes through their branches; we are definitely connected with nature. Flowers dress Costa Rica with aroma and colors, bringing always a smile on the beholder. Just imagine sitting down at home, right in front of an exotic flower from our country.

Some of the flowers that stand out are heliconias, anthurium, ginger flower, bird of paradise, orchids, and lilies, among others. Get to know the business people that have a vast and colorful bouquet for you. Turn the page, and see how easy it is to yield to the muses of nature.
